Dear Miss Mouroux:

I beg to apologize for not letting you know sooner about the medals which you wished to part with when you were here. I was under the impression that we had available a certain sum to buy these, but have since found out that this money can be only used for medals by American artists. In the meantime, I have been trying to interest our members regarding the purchase of your medals, but so far have been unsuccessful. I certainly will let you know just what we can do as soon as I find out.

Very truly yours,

Curator
